

E:/dev/bccb33-workspace
/myVensim/src/model.hpp

```
graph TD; A["E:/dev/bccb33-workspace  
/myVensim/src/model.hpp"] --> B["vector"]; A --> C["string"]; A --> D["iostream"]; A --> E["algorithm"];
```

The diagram illustrates a file path at the top, which then branches out via four blue arrows to point to four separate boxes below. Each box contains a standard C++ library header name: vector, string, iostream, and algorithm.

vector

string

iostream

algorithm
